Students invent 1st
'dinosaur' board game

By Bianca S. Reyes
BY THE END OF 1997, MAYBE IN 1998, 10
the day.
A big hit in the Manila market, the game was
developed by a group of students from the
University of the Philippines. It is
about 100% Filipino. (Manila Inquirer)
The game is a board game that is
designed to be played by 2 to 4 players.

Two Filipinos die in Lebanon

Two NAL units killed victims of terrorist bombing in Lebanon during the 1995-1996 season of
bombings. After their names were known, the Philippine Broadcasting Co. began to pass
information on the victims. The victims were killed in a bombing in Lebanon during the 1995-1996
season. The victims were killed in a bombing in Lebanon during the 1995-1996 season.

to the fact that the company's revenue is not as high as it was in the past. The company is also facing a number of challenges, including a decline in demand for its products and a loss of market share to its competitors. The company is currently working to address these challenges by implementing a number of cost-cutting measures and by developing new products and services. The company is also working to improve its marketing and sales efforts and to expand its distribution network. The company is confident that it will be able to overcome these challenges and return to its former glory.

**US Embassy gets
Senate report on
fertilizer fund scam**

CONCLUSIONS
The treatment of the 1990 health-care bill by the House and Senate demonstrates the importance of the political process in the development of health care legislation. The political process is the best way to ensure that the interests of all stakeholders are represented and that the resulting legislation is balanced and equitable.

Thompson, for the first time, could leave the fare of his return to his home in the Mississippi Delta and the other states where he has been doing good work.

The first step in the development of a new drug is the identification of a target molecule. This is often done by screening large libraries of compounds against a specific biological target. Once a target is identified, the next step is to design a molecule that can interact with the target. This is often done using computer-aided drug design (CADD) techniques. The final step is to synthesize the molecule and test its activity in cell-based assays.

Gov't declares war on jumbo fish, other alien species

THE GOVERNMENT HAS DECLARED war on jumbo fish, alien species and other invasive organisms that threaten the country's biodiversity.

The Department of Environment and Natural Resources (DENR) has issued a decree that bans the importation of jumbo fish, alien species and other invasive organisms.

The decree states that the government will take strict measures to prevent the entry of these species into the country.

The government will also take steps to eradicate any existing alien species in the country.

Super regions a mistake—Pimentel

By Lito S. Tellez

MANILA, June 10 (PNA)—The creation of super regions is a mistake, and the government should not proceed with it, said a top government official. The official, who is a member of the House of Representatives, said that the government should focus on improving the existing regions instead of creating new ones. He pointed out that the current regions are already facing many challenges, and creating super regions would only add to the complexity of the administrative system. He also mentioned that the government should prioritize the development of the infrastructure and the services in the existing regions.

Kin of missing hale gov't to SC

MANILA, June 10 (PNA)—The government has filed a petition with the Supreme Court to declare the missing person as dead. The petition was filed by the family of the missing person, who has been missing for several years. The family has provided evidence that the missing person has not been seen or heard from for a long time, and they believe that he is dead. The government has agreed to file the petition on their behalf. The Supreme Court will hear the petition and decide whether to declare the missing person as dead.

OPINION

Nonsense

President Duterte's decision to allow the use of the word "Lebanon" in the name of the new airport in the Philippines is a clear sign of his lack of understanding of the word's meaning and its historical context.

The word "Lebanon" is a proper noun that refers to a specific country in the Middle East. It is not a common noun that can be used to describe any other place or thing.

By using the word "Lebanon" in the name of the new airport, President Duterte is implying that the airport is located in Lebanon, which is not true.

This is a clear case of linguistic incompetence and a lack of respect for the language and culture of the Philippines.

The name of the new airport should be something that reflects the Philippines' rich history and culture, rather than a word that is completely unrelated to the country.

President Duterte's decision to use the word "Lebanon" is a clear sign of his lack of understanding of the word's meaning and its historical context.

Two Filipinos die in Lebanon

Figure 1. The effect of the concentration of the *Agrobacterium* suspension on the transformation efficiency of *Agrobacterium* strains. The figure shows the transformation efficiency (%) of *Agrobacterium* strains on the concentration of the suspension (10⁶ to 10⁹ cells/ml). The data are the mean of three independent experiments. Error bars represent standard deviation.

CFR estimates decrease as airport operations rise

PNP offers P100,000 reward for info on political killings

Figure 4 is a line graph titled 'Number of correct responses'. The y-axis is labeled 'Percentage of correct responses' and ranges from 0 to 100. The x-axis is labeled 'Number of trials' and ranges from 1 to 10. The data points are connected by a line, and error bars are shown for each trial. The percentage of correct responses increases steadily from about 10% at trial 1 to about 90% at trial 10.

| Number of trials | Percentage of correct responses |
|------------------|---------------------------------|
| 1 | 10 |
| 2 | 20 |
| 3 | 30 |
| 4 | 40 |
| 5 | 50 |
| 6 | 60 |
| 7 | 70 |
| 8 | 80 |
| 9 | 85 |
| 10 | 90 |

They can't be considered random killings, says a U.S. judge.

Figure 1 consists of four scatter plots arranged in a 2x2 grid. The top row shows the relationship between the number of children and the number of children in the household. The bottom row shows the relationship between the number of children and the number of children in the household. The left column shows the relationship for the number of children in the household, and the right column shows the relationship for the number of children in the household. The plots show a positive correlation between the number of children and the number of children in the household.

US moves out wounded RP troops in Sulu

MANILA, May 12 (AP) — The United States has agreed to move out of the Philippines 100 wounded Philippine troops who were injured during the 1992-93 conflict in the Sulu province.

The move is part of a broader agreement between the US and the Philippines to resolve the long-standing issue of the presence of US troops in the country. The agreement, which was signed in 1992, provides for the withdrawal of US troops from the Philippines by the end of 1993. The US has agreed to provide financial and technical assistance to the Philippines to help it deal with the aftermath of the conflict in Sulu.

The woman is being comforted by others after being rescued from a conflict zone in Sulu province.

NPA's hijack 2 buses in Isabela village

MANILA, May 12 (AP) — Two buses carrying passengers were hijacked by members of the New People's Army (NPA) in a village in Isabela province, northern Luzon, on Monday. The NPA fighters demanded a ransom of 500,000 pesos for the release of the passengers. The Philippine National Police (PNP) is currently searching for the hijackers and the buses.

Nickel mining covered by permit, says DENR exec

MANILA, May 12 (AP) — A senior official of the Department of Environment and Natural Resources (DENR) said on Monday that nickel mining operations in the Philippines are covered by a permit issued by the DENR. The official, who spoke at a press conference, said that the permit allows mining companies to operate in designated areas. He also said that the DENR is working to ensure that mining operations are conducted in an environmentally responsible manner.

Teachers, students complain about tent schools

MANILA, May 12 (AP) — Teachers and students in a school in a conflict zone in Sulu province have complained about the conditions in their tent schools. The school, which was built in a tent, is located in a remote area. Teachers and students have said that the tent schools are not safe and that they lack basic facilities. They have also said that the schools are overcrowded and that the teachers are not paid.

2 school kids killed as jeep runs into wall

MANILA, May 12 (AP) — Two school children were killed and several others injured when a jeepney ran into a wall in a schoolyard in a village in Isabela province, northern Luzon, on Monday. The jeepney was carrying a group of children when it lost control and crashed into the wall. The incident occurred during a school activity. The Philippine National Police (PNP) is investigating the cause of the accident.

Figure 1 is a line graph showing the percentage of total protein in the supernatant versus the percentage of total protein in the pellet for various proteins. The y-axis is labeled 'Protein' and ranges from 0 to 100. The x-axis is labeled 'Protein' and ranges from 0 to 100. The legend indicates: * = 100% in supernatant, * = 100% in pellet, and * = 100% in supernatant. The graph shows that most proteins are in the supernatant, with a few exceptions like BSA and IgG which are in the pellet.

Israel launches new air strikes on Beirut

TEL AVIV, Aug. 1 (AP) — Israeli jets launched a series of air strikes on Beirut on Monday, targeting Hezbollah's headquarters and a training camp. The strikes were the latest in a series of attacks by Israel against the militant group, which has been fighting against Israeli forces in southern Lebanon since 1992.

The Israeli Defense Forces (IDF) said the strikes were aimed at destroying Hezbollah's infrastructure and reducing its military capabilities. The group, which is designated as a terrorist organization by the United States and several other countries, has been responsible for numerous attacks on Israeli civilians and military personnel.

Hezbollah's leader, Hassan Nasrallah, said the group would not be deterred by the Israeli strikes. He said the group would continue its fight for the liberation of Lebanon and the return of Palestinian refugees to their homes.

The strikes came in the wake of a recent attack on an Israeli bus in Beirut, which resulted in the deaths of several people. The Israeli government has vowed to retaliate against such attacks.

The situation in Lebanon remains tense, with both sides claiming to have the upper hand. The conflict has caused significant displacement of people and destruction of property in the region.

US training for Dagmil, Torres set

By **Shawn S. Conley**
 Associated Press
 LOS ANGELES (AP) — The U.S. Soccer Federation announced Tuesday that it has selected two players to represent the United States in the 2006 World Cup. The players are **Dagmil** and **Torres**. The announcement was made by the U.S. Soccer Federation's general secretary, **John K. Pappalardo**. Pappalardo said the two players were chosen from a pool of 100 players who had been recommended by the U.S. Soccer Federation's regional associations. The two players will represent the United States in the 2006 World Cup, which will be held in Germany. The U.S. Soccer Federation will be looking for a strong performance from the two players in the 2006 World Cup.

EUROPEAN MEET Germany's Steffen rips 100-m freestyle record

BERLIN, Germany (AP) — Germany's Steffen won the 100-meter freestyle at the European swimming championships on Sunday, ripping the world record held by American swimmer Matt Welsh.

Steffen, 23, of East Germany, won the race in 51.92 seconds, beating Welsh's record of 52.54 seconds set in 1991.

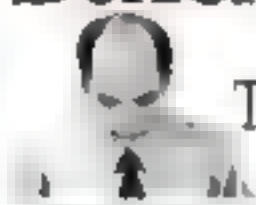

The race was held at the Berlin Sports Palace. Steffen's coach, Gerd Hanke, said his swimmer was "in great shape" and "very confident."

Steffen's victory was the first of his career. He is expected to compete in the 200-meter and 400-meter freestyle events.

Manila Mining to raise P895M through stock rights offering

Firm plans to pay debts, fund exploration projects

By Bernard L. Santos
Manila Mining Inc. (MMP) is planning to raise P895 million through a stock rights offering to pay off its debts and fund exploration projects, according to company officials. The offering is expected to be completed by the end of the year, they said. The company, which is listed on the Philippine Stock Exchange, has a market capitalization of P1.2 billion. It is the largest mining company in the Philippines. The offering will be used to pay off its P800 million debt and fund exploration projects in the Philippines and abroad. The company has a long history of mining in the Philippines and has discovered several large deposits. It is currently exploring for copper, gold, and silver. The offering will be a significant step in the company's financial restructuring and will help it to continue its exploration and development activities.

Teves wants tax payments of gov't officials made public

To plug leaks, promote good governance

By Richard S. Torres

MANILA, May 11 (PNA) — The House of Representatives is pushing a bill to require government officials to disclose their tax payments to the public. The measure, known as the Tax Transparency Act, aims to promote good governance and prevent corruption by making the financial records of public officials accessible to citizens.

The bill, which is currently in the House Committee on Public Administration, was introduced by Representative Teves. It requires all government officials, including members of Congress, to file an annual declaration of their assets and liabilities, as well as their tax payments. The information would be made available to the public through a centralized database.

Teves argues that transparency is essential for building trust in the government. He says that many citizens are concerned about the honesty and integrity of their leaders, and that this measure will help to address those concerns. He also notes that the bill is in line with international best practices for government transparency.

Transparency accountability and the budget for the DA

By Ismael B. Rosales

MANILA, May 11 (PNA) — The Department of Agriculture (DA) is pushing for greater transparency and accountability in its budgeting process. The department is currently reviewing its budget for the upcoming year, and is seeking input from stakeholders on how to improve its financial management.

The DA is a large government agency, and its budget is one of the largest in the cabinet. It is responsible for a wide range of agricultural programs, including crop production, livestock raising, and fisheries. The department's budget is subject to scrutiny by the House of Representatives, and the DA is committed to providing detailed information on its spending.

The DA is also working to improve its financial reporting and accountability. It has established a system of internal controls and is implementing a new financial management system. The department is also seeking to increase transparency by making its budget and financial reports more accessible to the public.

Highlands to raise P2B via shares issuance

By Michael S. Garcia

MANILA, May 11 (PNA) — Highlands Development Corporation (HDC) is planning to raise P2 billion through the issuance of new shares. The company, which is a subsidiary of the Department of Environment and Natural Resources (DENR), is currently in the process of preparing a prospectus for the offering.

HDC is a public utility company that is responsible for the development and operation of the Highlands Water Project. The project is a large-scale water supply project that will provide water to the Metro Manila area. HDC is currently in the process of completing the project, and is seeking to raise capital to fund the remaining work.

The issuance of new shares will allow HDC to raise the necessary funds to complete the project. The company is targeting a subscription rate of 100% for the offering. The proceeds from the sale of the shares will be used to fund the project's construction and operation.

Pricing issues turn off capital market investors

By Oliver Lina

MANILA, May 11 (PNA) — Pricing issues are turning off capital market investors, according to a report from the Philippine Stock Exchange (PSE). The report, titled "Pricing Issues in the Philippine Capital Market," highlights the challenges that companies face when trying to raise capital through the issuance of new shares.

The report notes that many companies are struggling to find the right price for their shares. This is often due to a lack of transparency in the pricing process, as well as a lack of information about the company's financial performance. The report also notes that investors are becoming more cautious about investing in the Philippine capital market, and that this is leading to a decline in the number of new share issuances.

The PSE is working to address these issues by implementing a new pricing system. This system will require companies to provide more information about their financial performance and to disclose the pricing process. The PSE is also working to increase transparency in the market by providing more information about the activities of investors and issuers.

Market has no doubts

MANILA, May 11 (PNA) — The Philippine Stock Exchange (PSE) has no doubts about the future of the capital market, despite the challenges it is currently facing. The PSE is committed to improving the market and to providing a platform for companies to raise capital.

The PSE is working to address the pricing issues that are turning off investors. It is implementing a new pricing system and is providing more information about the market. The PSE is also working to increase transparency in the market by providing more information about the activities of investors and issuers.

The PSE believes that the capital market is essential for the growth of the Philippine economy. It is committed to providing a platform for companies to raise capital and to providing a source of funds for investors. The PSE is confident that it can overcome the challenges it is currently facing and that the capital market will continue to grow in the future.

Palace asked to step into auto insurance row

By Michael S. Garcia

MANILA, May 11 (PNA) — The Presidential Palace is being asked to step into a row over auto insurance. The issue arises from a dispute between the Department of Transportation (DOTr) and the Department of Environment and Natural Resources (DENR) over the pricing of auto insurance for government vehicles.

The DOTr is responsible for the Department's fleet of vehicles, and it is seeking to have the insurance for these vehicles paid for by the DENR. The DENR, however, is arguing that the insurance should be paid for by the Department of Finance (DOF). The DOF is responsible for the government's budget, and it is arguing that the insurance should be paid for by the government.

The Presidential Palace is being asked to step into the dispute and to provide a ruling on the issue. The Palace is the highest authority in the government, and it is responsible for resolving disputes between different departments. The Palace is expected to provide a ruling on the issue in the near future.

Getting teens turned on to entrepreneurship

Setting up a venture could mean mom or dad no longer has to work abroad

By The Staff

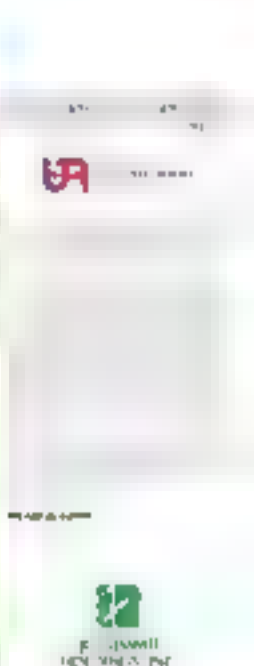

MANILA

MANILA, Philippines — A group of young entrepreneurs, some of whom are teenagers, are being encouraged to start their own businesses. The idea is to help them become self-sufficient and to provide them with a source of income. The group is called the "Teenage Entrepreneurs' Club" and is based in the Philippines. The club was founded by a group of young people who are interested in business and who want to help other young people start their own businesses. The club has a number of activities, including seminars, workshops, and field trips. The club also has a number of projects, including a "Teenage Entrepreneurship Competition" and a "Teenage Entrepreneurship Fair". The club is open to all young people who are interested in business and who want to help other young people start their own businesses.

Figure 1: A schematic diagram of a 2D lattice system. The lattice is composed of sites (represented by small circles) and bonds (represented by lines connecting the sites). The lattice is divided into two regions by a vertical line. The left region is labeled 'L' and the right region is labeled 'R'. The lattice is also divided into two horizontal sections by a horizontal line. The top section is labeled 'T' and the bottom section is labeled 'B'. The lattice is further divided into four quadrants by both lines. The top-left quadrant is labeled 'TL', the top-right quadrant is labeled 'TR', the bottom-left quadrant is labeled 'BL', and the bottom-right quadrant is labeled 'BR'. The lattice is also divided into two vertical sections by a vertical line. The left section is labeled 'L' and the right section is labeled 'R'. The lattice is further divided into four quadrants by both lines. The top-left quadrant is labeled 'TL', the top-right quadrant is labeled 'TR', the bottom-left quadrant is labeled 'BL', and the bottom-right quadrant is labeled 'BR'.

World's delicious tastes converge in Davao

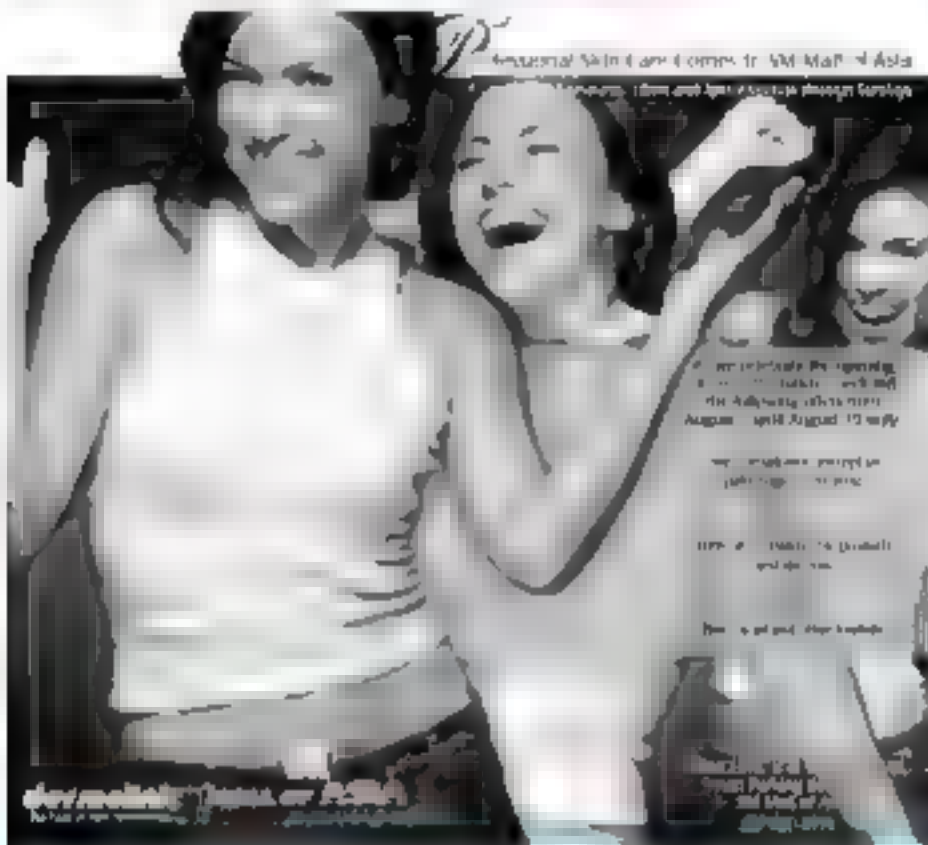

DAVAO CITY, FEB. 5 (PNA) — The Davao City International Food Festival, which is the 10th anniversary of the event, is currently in its 10th day. The festival, which is held annually, is a celebration of the city's diverse culinary heritage. It features a wide variety of food stalls, including local and international cuisines. The festival is a great opportunity for visitors to taste the best of Davao's food scene.

Mel Gibson's moment of living dangerously

By [illegible] and [illegible]

ONE OF THE MOST DANGEROUS MOVIES OF THE YEAR IS MEL GIBSON'S "THE PASSION OF THE CHRIST".

It's a story of Jesus Christ's final hours, and it's a story that's been told many times before.

But this time, it's told with a new level of intensity and passion.

Gibson's Jesus is a man of pain and suffering, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

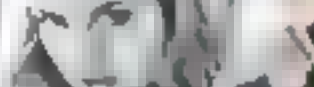

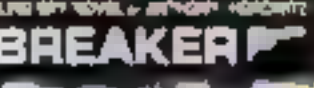

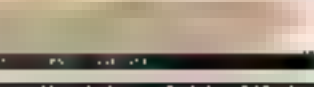

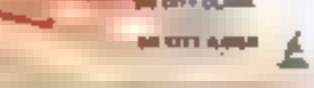

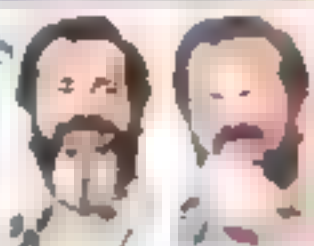

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.

It's a performance that's truly remarkable, and it's a performance that's truly remarkable.
